

## Adjustable Oil Filler Caps

### Adjustable Filler Caps

- Creates a positive seal that cannot be bounced or jarred loose.
- Tight seal virtually locks out dirt, rust and other engine damaging matter.
- Available in a variety of standard sizes.
- Special optional features include chain, plastic low clearance handles, and shrouded caps.

### How It Works:

As the handle is turned clockwise, the bottom plate moves upward. This action causes the grooved rubber body to expand, completing a firm, positive, airtight seal. Release with a simple, counter-clockwise turn of the handle.
