

Sloan MAXXClean

SUPER CONCENTRATE CLEANER

PEOPLE SAFE

ENVIRONMENT SAFE

MAXXClean Super Concentrate Cleaner

Conventional cleaning products, often rely on ingredients that are potentially hazardous for people and the environment. Highly alkaline chemistry is corrosive; common solvents can be absorbed through the skin with potential effects on the liver, kidneys, lymph and blood systems; and certain terpenes present both human health and environmental concerns.

MAXXClean Super Concentrate has been formulated in partnership with the U.S. Environmental Protection Agency to provide a safer, more environmentally preferable alternative to existing cleaning products without sacrificing performance. MAXXClean packs the punch you need to tackle the most demanding jobs and loosens grime on contact for quick and easy clean up.

This highly concentrated, versatile cleaner is formulated to take on a wide range of cleaning jobs. It is able to quickly power off even stubborn soils and greases from any surface not harmed by water.

MAXXClean Super Concentrate is available in 5oz. and 15oz. ready-to-use pouches to be made into Super Degreaser, Vehicle Wash or Window & Glass Cleaner.

Benefits

CLEANING POWER. In tests with comparable products containing potentially damaging chemical formulations, MAXXClean proves to clean as well or better than competitive products.

ENVIRONMENTAL COMPLIANCE. MAXXClean was designed in partnership with the EPA. From formulation to packaging, it's made to comply with the new environmental standards.

EMPLOYEE SAFETY. MAXXClean is safer to use than conventional cleaners. It doesn't contain butoxyethanol, citrus solvents or any caustic ingredients.

VERSATILITY. MAXXClean comes in two convenient concentrates and three applications to accommodate a variety of the most common cleaning purposes.

CONSISTENT CLEANING RESULTS. Pre-measured containers promote accurate and consistent results, eliminating wasteful or potentially damaging over-usage.
