ABOUT SLOAN TRANSPORTATION PRODUCTS LTD.

Located in Holland, Michigan, Sloan Transportation Products is an ISO-certified company serving the heavy-duty trucking industry as the single source provider of original equipment-quality air and electrical components.

Sloan is recognized as a leading supplier of quality heavy-duty truck and trailer products to original equipment manufacturers and the aftermarket. We also have one of the industry's broadest product offerings for the truck and trailer replacement market, including air and electrical delivery components, lift gate cylinders, hose clamps, gladhands and accessories, brass fittings, water pumps, oil filler caps/dipsticks and air compressor discharge hoses. Sloan is also the exclusive distributor of Michelin heavy-duty wiper blades.

Sloan products are designed to help keep trucks moving, no matter what the conditions.

EXECUTIVE BIOS

Thomas Bronz

President, Sloan Transportation Products Ltd.

Thomas joined Sloan as President following successful leadership roles in High Performance Product Development and Engineering for both the Brunswick Corporation and Pettibone Traverse Lift LLC. His return to the Commercial Vehicle market leverages 10 years of experience in this market segment as General Manager and Product Manager of the Air Systems Business Unit at Haldex

Thomas is an engineer by education and a leader by nature. He has excelled in complex situations and developed successful teams across functions, brands and businesses. His foundational background in manufacturing operations, technical sales and general management have been well rounded in Automotive, Commercial Vehicle, Consumer Durables and the Construction Equipment markets. His relationships and marketing skills have been developed supporting OEM, Dealer and Distributor customers either directly or through manufacturers' representative networks.

Thomas holds a Bachelor of Science in Mechanical Engineering (BSME) from Michigan Tech University, as well as an MBA from the Kellogg Graduate School of Management.
